Several Persons More or Less Seriously Injured.

The Police Successfulty Raid & Tan Game—Christian Charch Coavestion Elaises Money—A Wife's Story—A Nimble Journalist—The G.A.R. Committee.

Another fearful horse-car accident occurred at 4:40 o'clock yesterday afternoon. W. Horr, a driver in the employ of the California Southern and Atlantic and Pacific Transfer Company, had hitched his team and wagon, No. 250, in front of the St. Nicholas, on Fort street, north of Temple, and was in the house getting a trunk. Some children came rattling down the side walk on roller-skates, and the horses were naturally terrified. They snapped the stout strap with which they were hitched, and dashed down Fort street at a frightful gait. Half way between Temple and First streets they ran into Mr. Ireland's buggy, badly demolishing the vehicle and Jarring Mr. Ireland badly. He was not seriously hurt, however.

The mandened runaways kept on to First street. Car No. 14 had just turned from lirst street into Fort, going south, when the runaways overtook it. Instead of swerving the supplemental particular and the proper suppressed the runaways overtook it. Instead of swerving the supplemental particular and particular

The maddened runaways kept on to First street. Car No. 14 had just turned from first street into Fort, going south, when the runaways overtook it. Instead of swerving to one side, the runaways made a mad charge dead against the rear of the car. One horse became tangled and fell. The other actually mounted over the dashboard, and with his furious momentum wedged himself tightly into the narrow rear door of the car. It was a fearful situation, and bystanders expected that several corpses would be dragged from beneath his hoofs. He was finally pried out with a tree, however, and led away, very badly cut but with bonee unbroken. The wounded had been assisted from the car, which was a wreck. The most seriously injured was Mrs. A. M. Ellis, an elderly lady of No. 8 Lincoln street. Her left leg was broken between the ankle and the knee, and her left hand was broken an inch back of the knuckles. She was carried into Urny & Sears's office, No. 4 South Fort street, where Dr. Wade attended her. She is in destitute circumstances, and the Ladies' Benevolent Society will do well to look her up.

Police Sergeant Loomis was badly bruised about the head, and received an ugly cut on his leg. He also is laid up by his Injuries.

Mr. Myers, a well-known bricklayer, was bruised and stunned, but soon recovered sufficiently to walk away.

Mrs. F. P. Clemence, of 721 Sixth street, was severely shaken up, and fainted. She soon recovered.

John Long was also severely hurt.

The accident took place at exactly the same spot where the promising son of Judge A. M. Stephens was killed a few weeks ago.

AH. THERE! A Good Haul of Chinese Fan Tan Players Last Night. Chief Danyand Officers Jeffries, Sheets, Moffit, Mackle and Bowland raided a Chinese fan tan gambling game on "Nigger" alley last night at 9 o'clock and cap-tured fourteen of the tan-colored sports. The gamblers were having a high old time The gamblers were having a high old time when the officers punced in on them. They were so deeply interested in their favorite game that they did not hear the alarm signal given by their outside guard when the officers saluted him, and they were caught in the very act. They made an attempt to get away, but the officers had them dead to rights and headed them for the door. The crowd had hardly reached the sidewalk, when a heathen named Ah Gen, who was in the custody of Officer Jeffries pulled a knife about one foot long and was about to drive it into the officer's side, but Clerk Mofit noticed the motion in time to grab the murderors arm. There was no trouble after this, and the whole gang was safely lodged in the City Prison. Their bail was fixed at \$50 for the dealer and \$50 apiece for the visitors, with the exception of Ah Gen, who was locked up on a charge of assault to kill. This is the first Chinese gambling den that has been pulled

or some time.

THE CHRISTIAN CHURCH. Its Members Respond Generously for a Good Work.

A convention of the Christian Churches of Southern Californis was held last evening at the Christian Church, No. 53 Temple street, for the purpose of raising money to employ evangelists to go out and preach the gospel throughout the different sections of the southern part of the State. A large audience was present, and generously re-

Elder T. D. Garvin foilowed with an address in which he said that the meeting had exceeded his most sanguine expectations, not alone in the amount of money that had been raised, but in the enthusiasm with which the subject had been met.
The assemblage then adjourned to meet again this morning at 10 o'clock, when it is proposed to elect a chairman, secretary and treasurer.

Another Important Meeting of the Committee.

As the time draws near for the departure of the members of the G.A.R. to attend the National Encampment at St. Louis, the interest taken in the exhibit they will carry with them of the fruits and other products from Southern California, is largely on the increase. It is generally understood among people at large that this section of the State is determined to outshine any other exhibit likely to be on the grounds, and are consecutive of the fusion of the state is determined to outshine any other exhibit likely to be on the grounds, and are consecutive of the state is determined to outshine any other exhibit likely to be on the grounds, and are consecutive of the state is determined to outshine any other exhibit likely to be on the grounds, and are consecutive of the state is determined to outshine any other exhibit likely to be on the grounds, and are consecutive of the state is determined to outshine any other exhibit likely to be on the grounds, and are consecutive of the state is determined to outshine any other exhibit the state of the state is determined to outshine any other exhibit the state of the sta likely to be on the grounds, and are consequently very enthusiastic in giving all the

The general exhibit committee having this matter in charge, met in the Masonic Hall again yesterday norning, for the purpose of completing the arrangements already in hand and assigning each member of the committee to his place and duties. Gen. E. Bouton took the chair, and there were present the following members of the committee: G. W. Arbuckle, secretary; Milton Thomas, W. A. Barrett, W. B. Brown, E. M. Hamilton, J. Banbury and J. E. McComas.

MRS. HALL.

She Has to Call on the Police for Protection.
A Mrs. Hall, who resides at the corner of A Mrs. Hall, who resides at the corner of Olive and Second streets, called at the police station last evening and told a most pitiful story about the cruei manner in which her husband has treated her of late. They were married last June, in Chicago, and came out here two weeks ago. She would not go back to him last night except in the company of a police officer. Officer Jeffries went with her, and after she had gathered up what clothing she wanted the officer secured her a room in another part of the city. She says her husband has made several attempts to kill her.

A Runaway.

A very frisky runaway occurred on Fort street, near First, yesterday morning at 8 o'clock. A wild-eyed bronco who was ato'clock. A wild-eyed bronco who was at-tached to a butcher wagon, became fright-ened near Temple street, and dashed down Fort at a break-neck speed. When he reached First he ran into several buggles and smashed them up. At this point he broke loose from his wagon and was last seen tearing down Fort street toward Sec-ond.

unimages for malicious imprisonment. He alleges that Hall had him arrested July 12th on a charge of trespass; that Justice Terry deprived him of his Constitutional rights; and that on a hearing he was discharged. By the false imprisonment he was hurt to the tune of \$5000.

Badly Bruised.

Constable Bellue, of Vernon, arrested two toughs for fighting in a saloon, on Aliso street, last night. He took them to the police station, but could not put them in, and then started with his prisoners to the County Jail. They fought him the entire distance, and even at the jail made desperate efforts to get away. The officer is badly bruised up.

The Baptist College.

The Los Angeles University threw open its doors yesterday for the reception of students. About sixty were enrolled at the first session. From present indications the enrollment will soon reach one hundred.

Prof. Wells, a member of the faculty, was summored to be home in Sarth Angeles.

Another Meeting On the Tenth Main-Street Project.

Only \$30,000 of the Necessary Half Willion Now Lacking:

the Consummation of the Plan-A More That Evidently Means Business— A Good Meeting.

An enthusiastic meeting of many of the most promine t citizens and business-meet of Los Angeles assembled in the reception-room of the Ninth-street Engine-house last vening. The object of the gathering was a coint discussion of the new Tenth and Main street hotel proposition, with a vi fecting all the necessary arrange the early and speedy consummation

delays. Dr. Hagan, chairman of the moesting, called the assemblage to order. Secretary E. H. Owens then reported that the sum of \$410,000 had already been subscribed to date, leaving a balance of \$90,000 to swell the amount to the necessary \$500,000.

Dr. Hogan announced that, in addition to the \$250,000 already subscribed by Messrs. Hammel & Denker, these gentlemen have agreed to let the two and a half acres of ground go for \$150,000, taking the latter amount out in stock of the corporation. The problem now before the meeting was how to raise the necessary \$500,000.

Judge Ross said that, inasmuch as the corporation lacked but \$60,000, he had been authorized to notify the present stockholders that Messrs. Hammel & Denker had generously volunteered to donate half that amount—\$45,000—with the understanding that the remaining necessary \$45,000 be subscribed by the citizens before next Saturaday evening. The announcement was the occasion of much enthusiasm, and incited a healthy activity among those present.

Showers of additional donations followed, and Secretary Owens was kept exceedingly busy recording the respective additional amounts donated by the following well-known citizens:

Hammel & Denker, \$45,000; E. M. Ross, \$1000; Dr. Hogan, \$1000; Jacoby & Levy, \$2500; Shafer & Lanterman, \$1000; John Maskell, \$600; George Williamson, \$1000; R. Jeres-\$600; A. M. A Raid.

Last night, at 10:30, Sergt. Jeffries and a squad of officers pulled a well-known negro bagnio on Aliso street. After securing the nine inmates, they proceeded to look over the male portion of the crowd. Among the faces was recognized four well-known mem who pretend to be solid business (?) men in the city and one well-known newsparman whe was spry, and by his "winged heels" succeeded in making his escape.

Again Bound Over.

Dan Monroe, the hoodlum burgiar, was up before Justice Austin bound with the street of the sum occupied by Thomas Aturel, and stealing jewelry valued at \$200. Some of the jewelry was found in Monroe's vallse when his room in the Kimball Mansion was searched, Justice Austin bound him over to the Superior Court, with ball fixed at \$1000.

A Small Blaze.

A fire broke out in the roof of Henry Bohrmann's place at 414 South Spring street at 5 o'clock last evening. It was caused by a spark from the smoke-stack, which lodged in the shingles and was soon fanned into a blaze. Officer Moore happened to be near by and climbed on the roof, where he and once or two of the men soon got the fire under control. An alarm was not turned in.

THE CONFERENCE.

HERN CALIFORNIA METHODISTS IN COUNCIL.

teresting Convention of Min-rs and Laymon Now in Pro-us at the Fort-Street Metho-ChurchEpiscopal.

According to the printed programme, yesterday afternoon was to have been given to the enlebration of the anniversary of the Woman's Home Missionary Society, commencing at 2 o'clock, but as the business of the conference bids fair to take up considerably more time than at first supposed, the Missionary Society's meeting was postponed for half an hour, while the statistical session each pastor who has a charge is supposed to hand in a complete statistical account of his labors during the past year—the number of new members, number receiving letters, etc.; also the amount of moneys collected for the various objects for which collections are made, the amount of disbursements, and, in short, to give as concise a history of his charge as lit is possible to obtain. For this purpose suitable blanks are provided by the secretary of the conference, so that all the pastors have complied with the instructions in this respect, there are some delinquents, and it will be impossible to tell what progress the church has made during the past year until the last day of the conference, when the figures will be added up and the result publicly announced.

At 2:45 the members of the Woman's Home Missionary Society were called to order in the auditorium of the church by Mrs. J. P. Widnew, the president. The proceedings commenced by the singing of a hymn, in which the audience joined, and a sayer by Rev. Charles Leach, D.D.

The president then made a short but inseresting speech, congratulating the members on the forward strides taken by their seciety during the past year, and impressing upon each one the great responsibility they had undertaken in joining in the work of the society, and stated that with the large increase of the work in Southern California, it would need the greatest efforts of each individual member to enable the society to cover the field so that the Lord's work might be done in "rescuing the parishing."

Mrs. Gloson, the treasurer of the society, was then called upon to read her report of the financial condition o

The Gibson reported, further, that while a were several of the charges which had at line considerably more than their apportionant, there were several charges that had at in considerably more than their apportionant, there were several charges that had at in considerably more than their apportionment amounted to. Notably among the law was the comparatively small charge Monrovia, which had contributed \$10 tere the apportionment was but \$2. The corresponding secretary, upon being led on for her report, said that she had out a great deal of time in preparing her port in a business-like manner, so that any detail might be plain to everybody, a had then, "for fear of losing it, left it home." She, however, promised to have in the hands of the proper officer at an try moment, and in its absence reported well as possible from memory. RESOLUTIONS

By the Board of Trade on Gov. Bartlett's Death. The Los Angeles Board of Trade has passed the following resolutions:

WHEREAS, After a period of long and severe suffering, borne with a fortitude and patience reflecting the character of the man, it has pleased the Creator of the universe to remove from his place among men Washington Bartlett, Governor of the State of California, the directors of the Los Angeles Board of Trade, in sympathy with the citizens of our entire State, and desiring to place on record their appreciation of his high character, both as a private citizen and public official, do

Resolve, that in the death of Gov. Washington Bartlett, the State has lost a citizen whose active interest in all matters of public welfare, should be an example to all our people.

lic welfare, should be an example to all our people.

Actuated by pure and patriotic motives, his influence at all times, and on every occasion, was exercised on behalf of good and clean government.

As a man of spotless integrity, moral worth, keen and impartial judgment, his life is an example that all men can follow, and be the gainers thereby.

As a public official, in whatever capacity, from Clerk of the County of San Francisco to Governor of this great State, his attention to duty, his faithfulness to all public interests, and his stern and unceasing opposition to all acts of political chicanery and immorality, were such prominent characteristics of his nature as to merit the commendation of all men, whatever their political creed, and demonstrates that a political areer need not mar and destroy a pure and upright nature.

Elected Governor of California at the

Ventura County and Its Seat. Our up-coast neighbor, San Buena-

Among the enterprises under way in the town are several of met-ropolitan pretensions, the completion of hich will go far toward making a city where a village lingered—not "superfluous," but slow—before. The work of laying excellent sidewalks from one end of the town to the other s going forward; grading for the new street-car track has begun, and two ine hotels are under way or projected. The walls of one of these (L. J. Rose's) are already up three stories, and work upon the stylish terra cotta front is about to be commenced. The interior finish will be in polshed hard wood throughout, and the aim of the enterprising builder is to make his hotel building second to none on the coast in the particulars of completeness and excellence of construc-tion. Another new hotel, to cost \$50,000 will be built by Mr. Welch, of Santa Barbara, an old-timer, who knows and believes in the country. The new bank of Collins & Sons, opened on the 1st inst., supplements the old bank and furnishes the sinews of war for the campaign of progress that has been entered upon in earnest by the people, and particularly by the newcomers who are said to be foremost in every enterprise.

The arable lands of the county, being chiefly in the valleys of the Santa Clara and San Buenaventura rivers, are ex-tensive enough to support in comfort, and even in affluence, a numerous population. The Santa Clara Valley, from Newhall, in Los Angeles county, to the sea near the chief town of Ventura with the Southern Pacific Branch Railway running its length, has as yet a sparse population, but the large ranchos are in course of subdivision, and settlement, cultivation, expansion and increased wealth will

CONGO PIGMIES

CONGO PIGMIES.

The Cunning Lilliputians Living in the Heart of Africa.

[San Francisco Examiner.]

Ronzo de Leo, who traveled many years in Africa with Dr. Livingstone, was one who almost stood out alone in the assertion that a race of dwarfs lived in Central Africa. In his lectures in America he told of a little people who field to the clefts of the rocks when the explorers approached.

C. Eugene Wolff, who traveled many years with Stanley, and who is now in the city, gives some queer accounts of these dwarfs. "On the southern branches of the Congo," said he to an Examiner reporter, "I have seen whole villages of these lilliputians. They are a generous little people, who live in rude huts and clear ground, engaging in varied sorts of agriculture. They are also skilled hunters and they make palm wine. They are as lithe and supple in climbing trees as monkeys or baboons, although they are physically as perfect men as any of the giant tribes thereabout, and they know as much. The men are not over four feet and a half high, while the women arrow, and readily bring down the African bison, antelope and even elephants with them. As trappers of small animals they are unsurpassed. In a close pinch they use the lance with astonishing dexterity, and an ordinary sling in their hands is wielded with wonderful skill. The dwarfs collect the contract the collect the contract of the collect sling in their hands is wielded with wonderful skill. The dwarfs collect wonderful skill. The dwarfs collect the sap of the palm, with which they make soap. The men are smooth-faced and of a rich mahogany color, while the hair is short, kinky and as black as night. Tens of thousands of them live on the south branch of the Congo. They are an affable, kind-hearted people, of simple ways and devoid of vicious tendencies to a greater degree than most semi-barbaric races. The women are industrious and amiable. Very queer those people look alongside the great, swarthy blacks farther up the Congo. The latter are of a prodigious size, uncouth, rude to the remotest degree, and cannibalistically digious size, uncount, rude to the re-motest degree, and cannibalistically inclined. The dwarfs stand in awe of them, but are so brave and cunning that, with all the odds of physique against them, the pigmies are masters of the situation."

Nellie Grant's Views.

Mrs. Nellie Grant Sartoris, who has lived thirteen years in England, is reported by the correspondent of the New York World as expressing the following views of English women: "You spoke about the condition of women in England. It is somewhat different here than in America; but you must remember the ladies assume more self-reliance here than American women know. They are resolute, full of good health, are fond of exercise, and take to the sports of the field with the men. They do not expect the attention which American women demand; yet I think English ladies are treated with courtesy as real and substantial as the women of any other country. There may not be quite so much obsequious courtesy shown them, but in those elements of association which really tend to make up one's happiness there is as much attention paid women in England as anywhere in the world. It is an old country and its customs are well established. There is not the tithe of ceremony that most people think, and there ie a great deal to commend in what American women find strange at first, but would very soon fall into." ward, the visitors were entertained at Armory Hall, where a repast was served California wine was drunk, and there were tossts and responses by Mayor Gregory, Hon. White today filed a bill in equity on behalf
of the Government against the Northern
Pacific Railroad and others praying first for
an accounting with the Northern Pacific
Railroad; second, for an injunction restraining all the defendants from cutting
timber on public lands, and third for paystraining all the defendants from cutting timber on public lands, and third for payment to the Government of upward of \$2,000,000 by the company for timber already unlawfully cut and used in the construction of the road and for other purposes. The United States attorney asserts that by the act of Congress authorizing the road to cut timber the license or privilege granted thereby expired July 4, 1879. He further asserts that all timber cut from that date up to the present was without authority of law. He alleges that a portion of the Northern Pacific, from Spokane Falls to Wallula Junction, was constructed of timber from Kittites and Takima counties, which are not adjacent to that portion of the road, and that timber for the Kenewhick bridge was taken illegally. SAN FRANCISCO, Sept. 14.—[By the Associated Press.] Great prominence is given here by local newspapers to the change announced in the directory of the Nevada Bank. According to the published accounts the change was the natural outcome of the recent big wheat deal. Senator Fair retired from the bank several years ago, and the business relations between him and Mackay and Flood were not of the most cordial nature. The personal disagreement, hownature. The personal disagreement, how-ever, was healed a few days ago, and negotiations were entered into for Fair's return to the bank. BOUND TO BOOM THE STATE.

This afternoon the State Board of Trade
met in the Chamber of Commerce to conmet in the Chamber of Commerce to consult with newspaper men and representatives of newspapers throughout the State. About thirty newspaper representatives were present. The meeting was called to order by A. T. Hatch, president of the Board of Trade, who stated the object of the meeting to be to see if some policy could not be adopted whereby the advantages of every section of the State might be made known, but not exaggerated to the detriments of any other.

John P. Irish was unanimously elected chairman of the meeting. Mr. Barnes said that sixty-six daily papers were published in the State and 301 weekly. The circulation of the city papers exceeded the country papers, and was one-third more than that of the country press. The influence of this press was inestimable. The success of the State was dependent upon it, and likewise it was the growth and prosperity of the State that made the great city press possible.

L. M. Holt, of Riverside, spoke at length on the cause of the southern boem, and ascribed its success to the extensive and legitimate advertising of that portion of the State's resources in the regular press.

After a discussion as to the best method of advertising the State, a motion to attend the funeral ceremonies of the late Gov. Washington Bartlett in a body was adopted, and a committee appointed to make arrangements for the same.

New York Republicans in Convention-Col. Fred Grant Nomi-State-Platform

By Telegraph to The Times.

SARATOGA, Sept. 14.—[By the Associated Press.] Full delegations to the Republican convention have arrived. During last night consultations respecting nominations and organization continued till near midnight. Senators Evarts and Hiscock declined to be considered sanitable for the

miningli. Senators Evarts and Hiscock declined to be considered aspirants for the chairmanship of the convention, and both agreed to urge Seth Low for pro tem. and Warner Miller for permanent chairman.

Yesteday Senator Hiscock called upon ex-Senator Miller, and a friendly interview resulted. Both expressed hopes for the Republican party's success and needed their control of the publican party's success, and pledged their efforts thereto. Later Miller returned His-cock's call, and then it was arranged that a conference of leading men should take place. Messrs. Hiscock, Morton, Miller piace. Messrs. Hiscock, Morton, Miller and Burleigh came together, and were two hours in consultation. The general purpose of the platform was considered, and shaping of the State ticket discussed. The diea reached was that the platform should declare that tae tariff laws, when changed, shall be changed by their friends, and there should be a plank approving the temperance legislation of last winter, attacking President Cleveland for faithlessness to civil-service reform, and Gov. Hill for vetoes, declaring for an advanced civil-service reform, and sympathizing with Irish home-rule.

Promptly at noon 693 delegates met in the Casino rink. Hon. Seth Low-at once assumed the temporary chairmanship, at the same time beginning an address to the convention.

same time beginning an address to the convention.

Mr. Low advised the convention to give up all attempts to eatch the prohibition vote, and to place the Republican party firmly upon a platform declaring for high license and local option. At the conclusion of his speech, committees were appointed and a recess taken ustil 4 p.m.

When the convention reassembled, Warner Miller was made president, and the committee proceeded to nominations.

Hon. William M. Evarts named Col. F. D. Grant for Secretary of State in a warm speech. Grant was unanimously nominated. Judge J. Lamoreaux, of Saratoga county, was nominated for Comptroller; James H. Carmichael, of Erle, for Treasurer; James A. Dennison, of Fulton, for Attorney General, and O. H. P. Cornell for State Engineer.

THE PLATFORM.
The platform begins by saying: "The Republican party desires restoration to power in State and Nation, and rehearses nepublican party desires restoration to power in State and Nation, and rehearses its record and that of the Democratic party as reasons therefor." The platform declares that a change in tariff should be made in the interest of protection of labor on American soil. The civil service reform law is indorsed, and President Cleveland and Gov. Hill are arraigned for hypocrisy and "systematic perversion of the law for partisan purposes." The persecution of the workingman in the South and a denial of his civil rights is charged. Veterans of the war are entitled to public preferment and generous pensions, and President Cleveland's "flippant, sneering" language in vetoes is referred to as "insulting to the veterans and degrading to the executive." The rebel battle flag incident is referred to as deserving reprobation.

On the question of immigration the platform says: Anarchists, Communists, polygamists, paupers, fugitives from justice, and insane, victous and criminal persons.

On the liquor question in the State, legisla-tion is recommended for giving local option and restriction by taxation. Gov. Hill's vetoes of bills restricting the liquor traffic are condemned, as well as several other of his acts. The minority report on the liquor question was defeated. Sympathy is ex-tended to Ireland.

Becoming desperate, she jumped through an open window 35 feet to the ground below, breaking her left jaw and all the ribs on her left side. She is also internally injured left side. She is also internally injured and cannot live. Excitement is run-ning very high, and there is serious talk of lynching the cowardly villain.

Hesperia.

Some of our contemporaries are wasting a great deal of eloquence decrying the lands of Hesperia, because they are "desert." It hasn't been thirty years since the most beautiful land in the Union was known as the Great American Desert, and so marked on the map. It hasn't been more than ten years since the San Gabriel Valley, the richest and most prolific on earth, was considered too barren even for jack rabbits. The Hesperian settlement gives abundant promises of being all that is claimed.

The cities of Southern California are attracting so much attention that the people back East will soon forget that there is such a place as San Francisco if extracrdinary measures are not soon taken to keep its name before the public. After awhile, when Southern California is filled clear full of people, the North will get a benefit from the overflow.

The Illinois Supreme Court Renders

A Stern Rebuke to Leaders Who Incite to Murder.

vado—Their Lawyer Will Try to Get a Hearing in the United States Supreme Court.

OTTAWA (III.), Sept. 14.—(By the Associated Press.) The Supreme Court this morning delivered an opinion in the Anarchist cases affirming the judgement of the court below. The execution is to take place November 11th, between and 4 o'clock. The opinion was written by Judge Magruder, of the Chicago district, and is an able exposition of the law and previous interpretations thereof by eminent jurists in this country as well as of courts, bearing upon alleged and perhaps real errors in the record. In this work he was ably helped by each of the other distinguished judges, who made him spokesman guished judges, who made him spokesman and through him expressed an unanimous decision. The opinion contains about

26,000 words.

The court orders that the sentence by the Superior Court of Cook county, of defendants August Spies, Samuel Fielden, R. Parsons, Adolph Fischer, Engel and Louis Ling, be carried into effect on the 11th day of November next, between 9 o'clock in the forenoon and 4 in the afternoon of that day. Judge Sheldon announced that he concurred in the opinion. Judge Mulkey said: "While I agree in the opinion and also the general views of the court, I do not wish to be understood as holding that the record is free from error, but none of the errors complained of, in my opinion, are of such serious character as to require a reversal of the judgment."

SYNOPSIS OF THE OPINION. In giving the opinion on the case Judge lagruder, speaking for himself and the ourt, says, in substance: About the 1st of

Magruder, speaking for himself and the court, says, in substance: About the ist of May, 1886, the workingmen of Chicago and other industrial centers were generally worked upon by outside influences and greatily excited, especially over the eighthour movement. In the midst of this excitement a meeting was held May 8th, 1886, at the Haymarket, and it was addressed by the defendants, Spies, Parsons and Fleiden, and while the latter was making als closing speech several companies of policemen, numbering 180 men, marched into the crowd from the station on Desplaines street, and ordered the meeting stopped. As soon as the order was given some one threw a bomb. The plaintiffs in error are charged with being accessories before the fact. There are sixty-eight counts in the indictment and these charge eight defendants with being present and abetting. If the defendants advised and encouraged, aided or abetted, in the killing of the policemen, they are as guilty as if they had taken these men's lives with their own hands. If any of them stood by and saw or aided in the throwing of the fatal bomb each of the aiders and abettors are as guilty as the one who did the fatal deed.

The questions presented are: Did the defendants have a common purpose or design to murder these police? Did they combine for that purpose, and was the result of such combination the death of the men, or were they the gnardians of the law? The answer is: Who made the bombs that killed Deggint and writness says: "I saw the bomb, and know it was a round bomb." The court then enters into a description of the various bombs in use or known to the Anarhists, and concluding that these are the most deadly of them and were made by Louis Ling, and that, judging from what had been found in his possession and from his acquaintance with William Selliger, who was a German carpenter, and who seemed to be an expert in bomb making, and in March, 1886, bought the dynamite into gas-pipes and globes. He was also assisted by a number of persons, and Selliger among them. Up

of the Haymarket meeting.

OVERWIFELMING EVIDENCE.

Three or four bombs were examined and pleces taken from Deggan's body, and those found at Ling's, after his arrest, run the same in composition. Upon Ling's guilt the court asks the question: Why did Ling make the bomb which killed Deggan?

To answer this it becomes necessary to examine the character of the association with which the defendants were connected and its aim and objects. Its platform was published by a certain bureau of information, and called "The Alarm and Arbeiter Zeltung." Among the extracts are the peculiar ideas of the Communists, the abolishment of titles to lands and a sort of peculiar ideas of the Communists, the abolishment of titles to lands and a sort of free domain, which is far beyond or ages in the rear of modern civilization. In some of these articles the charge is made that the State, the churches, schools and the press are in the pay and under the sway of capitalists, and that laborers must overthrow these powers by physical strength. It is admitted, and even positively asserted, that such a thing as the right of property is not only a great myth, but a great wrong to those who, by laziness and other faults, have never earned property, or by their want of thrift cannot keep such as they may have had.

The following incident reported was recently with respect to the tithe war in North Wales. A formidable band of bailiffs visited recently one of the largest farms in the disturbed district. On presenting themselves at the door of the house, the bailiffs inquired of the servant if her master was at home.

"No. he is not?" answered the servant.

The argument goes further and finds that each of these defendants has willfully and ach of these defendants has willfully and naliciously violated the laws of the State of illinois and that they shall suffer its extended by the court of Cook county, on the day previously stated.

THE PRISONELS HEAR THE NEWS.
CHICAGO, Sept. 14.—The dispatch containing the announcement of the Supreme

ing the announcement of the Supreme Court's decision was sent to August Spies in his seel this morning. The Anarchist editor took the message, glanced frowiningly at the attorney who handed it to him and withdrew to the door of his cell. In a few moments he called gently to the old man who sits outside his door as the deathwatch, and asked him to hand the telegram sheet to Parsons, from whom it went to all the others, and at last reached Neebe, who is only under sentence of imprisonment. It could be seen that each of the condemned men made ostentatious efforts at coolness and bravado. They took seats at their cell doors and read the newspapers. They also read books, smoked cigars, etc. Ling, the bomb-thrower, whistled.

Gen. Black's Annual Report-Great Increase in the Nation's Pen-sions—The Navy Department Groans-Notes.

By Telegraph to The Times.

WASHINGTON, Sept. 14.—[By the Associated Press.] Gen. Black, Commissioner of Pensiens, in his annual report to the Secretary of the Interior, makes several important suggestions and asks for increased clerical forces and an appropriation of \$18,000 for additional agencies. There were at the close of the year 406,007 pensioners. Fifty-five thousand one hundred sioners. Fifty-five thousand one hundred and ninety-four new pensioners were added to the rolls during the year and 2707 names which had been dropped were restored. Seventeen thousand six hundred and

seventy-seven were dropped during the year.
The aggregate annual value of all pensions is \$52,824,600, an increase of like value for the year of \$8,136,600. The amount paid for the year of \$8,139,000. The amount paid for pensions during the year was \$73,465,500, an increase over the previous year of \$0,669,-750. The amount paid on 44,019 new pensions on first payment was \$25,167,000. The estimates for the first fiscal year, ending June 30, 1888, aggregate \$79,043,230.

June 30, 1888, aggregate \$79,045,230.

THE TARDY THETIS.

Dispatisfaction is expressed at the Navy Department over the slow progress of the United States steamship Thetis toward Alaska. The vessel salled several months ago from Portsmouth, Va., and should have been at her destination by this date. When last heard from the Thetis was at Callao, Peru, and it is extremely doubtful if she can reach Alaska, where she is to assist in protecting the sealeries, before winter closes in.

Acting Secretary of the Treasury Thompson, this afternoon accepted \$4,199,500 of the 4½ per cent. bonds at prices ranging from \$107.98 to \$108.74. The offerings aggregated \$5,175,900, of which \$4,080,700 were registered and \$1,095,200 coupons. The prices asked ranged from \$107 to \$110.

Beck and Blackburn.

[8t. Paul Globe.]

"Do you know Beck and Blackburn, the two Kentucky Senators?" asked a former Kentuckian yesterday. "Well, I'll tell you about them. It is singular that two men of such distinct characteristics should be colleagues in the Senate. Jim Beck and JoejBlackburn are antipodes. One is everything that acteristics should be colleagues in the Senate. Jim Beck and JoejBlackburn are antipodes. One is everything that the other is not. Beck is brusque and trawny. When Blackburn speaks he festoons the room with bouquets, and when he has finished you have no recollection of what he said. To illustrate, we will suppose that you give each of them the simple proposition to state that twice two makes four. Beck will state it in just that language, and everybody will grasp it at once. But Blackburn will come at it in this way: 'I will take the figure I and then duplicate it, and when I have combined that duplicate with its equivalent by a process of multiplication I will venture the assertion, and I do it with the fullest confidence that I can demonstrate it to you beyond all possibility of doubt, and I wish tunderstood, my fellow countrymen, that I always stand ready to verify my assertions even to the spilling of my heart's blood, that when these multiples have been combined and adjusted in the manner of the Tennessee.

A DANGEROUS ASSOCIATION.
This association. as Judge Magruder expressed it, subverts all laws. The court, at some length, then proceeded to connect the other felonies in the case. For instance, that these defendants were the chief movers and center of all the communistic meetings in Chicago, and that they were always promounced leaders of the red flags. The evidence was that there were twenty-five to thirty labor unions in Chicago at that time, embracing a membership of from 15,000. A large majority of these men were honest and industrious, working daily for anarchy or any of its hateful doctrines. DENVER (Colo.), Sept. 14.— By the Associated Press. Yesterday afternoon a negro cook named Joe Dixon, employed at Hotel Beaumont, Ouray, Colo., had a fancied grievance against Miss Ella Day, a waitress, and shot her four times with her formal control of the contr and shot her four times with a large re-volver, three balls taking effect in her arms and breast. Dixon was arrested and jailed. Reports reach here tonight that early this morning a mob went to the jail for the pur-pose of lynching the negro. They captured the guard but failed to gain entrance. They then saturated parts of the building with coal oil and set fire to it. The fire department came out and in an unsuccessful attempt to extinguish the flames, drowned the negro whose body was roasted in the burning building. The wounded girl is not ex-pected to recover.

A long report of the committee on resolutions was adopted, which states that it is the first duty of the association to use the highest efforts for the correct education of public opinion on the subject of the liquor trade in its relation to the individual, the State and society. The association is opposed to prohibition, general or local, because it believe it to be wrong in principle, impossible of enforcement and promotive of the worst forms of deceit and hypocrisy. It indorses the tax or license system, and favors State enactments imposing a reasonable license that will not amount to prohibition. It deprecates efforts on the part of men in high public positions to drag the wine and spirit business into the arena of politics. A Fine Display Now in Place ing Interest in the Baby Show to Be Held Tomorrow–Entries Made Yesterday–Notes.

The attendance at the Pomological Fair last night was much larger than on either of the previous nights. People were com-ing and going all day, and seemed to take at interest in the display. All of the les are dressed now and the immense I presents a most attractive appearance. The management will present several new features during the week, among which will be the baby show on Friday evening. This will be the main feature of the exhi-This will be the main feature of the exhi-bition, and will be largely attended by the little folks, to judge from the number of entries that are coming in. The music last evening was much enjoyed, and a most ex-cellent programme was read at the second cellent programme was presented. Follow-ing is a list of the exhibits entered yester-

PAIR NOTES. The Methodist Episcopal conference now in session in this city, has been invited to visit the Pomological Fair, and the minisnposing it will attend the fair today

ters composing it will attend the fair today in a body.

The number of exhibits has been largely increased and the main floor presents a truly magnificent appearance. A more complete and attractive display of fruit has never been made in Los Angeles. Those who miss the exposition will have cause to rezret it ever after.

The management of the fair have extended invitations to the matrons of the Orphans' Home and the Sisters' School and Asylum to take their charges on a visit to the fair. They are expected to attend on different days, one on Friday, the other on Saturday. A visit of this kind has always afforded great pleasure to the little ones.

Some elegant specimens of needle-work were added to the ladies' department yesterday. Elegant hardly expresses the idea. The work is something which can only be described as "to be seen to be appreciated."

As the time draws near for the baby show the interest increases in a decided manner.

As the time draws near for the baby show the interest increases in a decided manner. Twenty mites of humanity have been named and listed for competition for the various premiums offered. As the list remainsopen until Friday noon, doubtless others will be named. Among them are two pair of twins. Baby day is always appreciated, and the Pavillon crowded whenever this is the attraction.

An excellent provided for the remained post the week.

The audience fully appreciated the pleasure afforded by the opportunity for a promenade in the expanse of gallery last evening, and seemed to enjoy it to the utmost.

The music furnished by the Seventh Infantry Band is very fine indeed, and elicits very favorable comment. Mr. Bartlett, the leader, keeps his musicians very busy.

The fair is now running in good shape without friction, and making a good reputation.

peaches. A PINE EXHIBIT.

One of the finest art exhibits at the Pomo-logical Fair, in Hazard's Pavilion, is that presented by Henry Bohrmann, of 414 South Spring street. He doals in and manufactures wood mantels and office and store fixtures, and makes all kinds of cabinet ware to order. He also has idoor, hall and vestibule tile at Eastern prices. His display of mantels stands in the center of the hall and is the first thing to attract the eye on entering the doorway. They are made of Mexican rosewood, old English oak, Spanish cedar, black walnut and California redwood. They are all handsomely carved, and dressed with solid brass and handsome tiles. The woods used by Mr. Bohrmann have received the highest polish, and even the most careless observer can see at a giance that he employs only the best workmen. He has all of the latest improvements in mantels, and his prices down to the lowest Eastern notch. presented by Henry Bohrmann of 414 South

—Extensive Excursion Arrangements.
Mr. P. W. Thompson, well known in Los Angeles as the agent of the Chicago, Rock Island and Pacific Railway, has been appointed by the popular firm of excursion managers, Messrs. Raymond & Whitcomb, of Boston, their agent in this city. The increasing business of the firm, especially in connection with their Southern California business, renders it important that they have a representative here. Messrs. Raymond & Whitcomb with have an increased number of excursions to Los Angeles the coming winter, and several cast-bound excursions will start from this city, going through to Boston without change of ears. The Pullman Palace Car Company are building two magnificent trains of vestibuled cars expressly for the use of the firm inheir California and Mexico tours. These will include, in addition to sleeping-cars of the most luxurious kind, dining cars, reading, writing, lounging and smoking rooms, barber's shop, bath rooms and other novel features. The first of the vestibuled trains will arrive at Los Angeles with a company of Boston excursionists Saturday, November 19. These trains will make several trips from Los Angeles castward in the course of the winter and early spring.

Catarrh is often regarded by the patient as a cold in the head, and he often expresses his astonishment at his remarkable tendency to contract a fresh cold; indeed, he declares that he is searcely free from one cold before the takes another, and cot he is always exceedingly careful; it is also a matter of surprise to him that the cold always seems to settle in the head and threat.

At times many of the symptoms of Catarrh may seem to abate, and the patient is led to settle in the head and threat.

At times many of the symptoms of catarrh may seem to abate, and the patient is led to hope that the disease is about to wear off; but snother class of symptoms soon appears, and he learns to his horror that instead of recovery from the disease, it is somewhat changed in its character and has extended to the throat. A sonse of weariness is somewhated in the changed in the chroat, or it appears that some oreign substance, as, for instance, a hair, obtracted the throat, or it appears that some oreign substance, as, for instance, a hair, obtracted the throat, or it appears that some oreign substance, as, for instance, a hair, obtracted the throat, or it appears that some oreign substance, and other symptoms occur after the disease has made considerable progress. Then it is a time when consumption is about to begin its dreadful work. Up to this time the progress of the disease may have been slew, and the patient may, in expressing his confident hope that it will "wear off," declare that he has had the catarrh for years, and has not seemed to become much worse, and trusts that he will "by-and-by" receiver. ervated roads, from which returns of earnings and traffic operations for the past year were received, equaled 125,-147 miles, against 123,110 miles of road for 1885. The share capital of all the railroads making returns, including the elevated railroads, equaled \$3,999,508,-508, against \$3,817,897,832 for 1885; their funded debts, \$3,882,666,330, against \$3,765,72,096 for 1885; their unfunded debt, \$280,673.814, against \$259,103,281 for 1885. The amount of share capital and indebtedness of all the companies for 1886 equaled \$8,163,148,652, against \$7,842,533,179 for 1885, the increase equaling \$320,615,473, the rate of increase being about 4.09 per cent. The earnings from freight equaled \$550,359,054; from passengers. \$211,929,857; from miscellaneous sources, \$59,903,038. The operating expenses of all the roads for the year equaled \$524,880,334, the net earnings being \$297,311,315. The gross earnings upon the entire capital invested exceeded 10 per cent.; the net nearly equaled 3.5 per cent. The amount of interest paid the past year equaled \$189,036,304, against \$187,426,035 for 1885; of dividends, \$81,654,138, against \$77,672,105 for 1885. The percentage of interest paid on the funded debts of the companies of the past year equaled 4.75 per cent., against 4.77 per cent. for 1884. The percentage of dividends paid to the whole share capital equaled 2.04 per cent., against 2.02 per cent. for 1885. The earnings per mile of lines operated the past year equaled \$6570, against \$6265 per mile for 1885, the increase per mile being 4.9 per cent.

The general results of the operations of the railroad system of the country are briefly summarized as follows:

The traffic operations for the year—the passenger and freight movement—were largely in excess of any previous year, but the increase in the volume of traffic was, nevertheless, little above the average increases of past years, and is indicative of a healthy revivai in the business of the country, and a continuance of its development rather than of any extraordinary mo

is to admit of but little further decrease.

The earnings of the year, when comared on a mileage basis with the average of 1885, show large increases, but et fall very much short of the averages of 1884 and 1883. This may be accounted for in some measure by the act that a large extent of the mileage constructed in recent years has been through long stretches of comparatively undeveloped country; and again by the fact that the construction of duplicate parallel lines, to which extended reference has been made in former numbers of the Manifal.

The exhibit of earnings made is still more gratifying by the reduction in the cost of operating the roads, the total cost of operating the roads.

more gratifying by the reduction in the brost of operating the roads, the total cost in 1886 being 63.84 per cent. of the gross earnings, against 65.12 per cent. in 1885, the reduction being due chiefly to improved methods and the introduction of necessary economies.

The payments made for interest on bonds during the year show a decrease in the average rate of 0.02 per cent. This is probably due to the large increase in the funded debts of the companies, made to provide the means for new construction on only a small part of which interest accrued or became due within their fiscal years; also to the provisions made and in many reorganization schemes for a reduction in the rate of interest, and for deferring interest payments for certain periods, and to the gradual retirement of high-rate bonds by the larger corporations.

The general result for 1886 is a very

of high-race result for 1886 is a very favorable one, not only in the increase of earnings upon the investments, but in the better sentiment which prevails. The managers of our great lines feel themselves to be much lines feel themselves to be much

of earnings upon the investments, but in the better sentiment which prevails. The managers of our great lines feel themselves to be much more masters of the situation, as it were, than for some years past. Within the past year disturbing influences of great magnitude have been removed, of which the absorption of the West Shore by the New York Central, and of the New York, Chicago and St. Louis by the Lake Shore, may be given as examples, showing that, in great emergencies, the managers of our railroads can act like men of sense, and profit by the expenience of the past.

There seems to be a disposition on the part of all our railroad companies to cultivate the traffic of the district swhich they specially occupy, rather than invade the territories of other lines. The new roads opened the past year, or in process of coastruction, consist mostly of laterals or feeders to trunk lines. Some have been, or are being, constructed at a cost so low as not to draw excessive amounts of capital from other industries, while they will add largely to the earnings of the trunk lines to which they belong. RED AND WHITE.

Incident of the New Lunacy Started by a New York Reporter.

[F. B. M. in washington Lotter]

The red-headed girl and white-horse craze has hit Washington hard, and it is getting so red-headed girls don't dare to venture upon the street since it has got out that whenever you see a red-headed girl you will see a white horse. As a red-headed woman walks along the street she becomes aware of the excitement she is creating. Every man who sees her stops short and begins to look up and down for a white horse. Men who see her pass the window rush out of the door to look for a white horse. If she goes into a store she cannot but observe that the clerks slip to the window or door looking for white horses, and she sees men, as she passes along the promenade, signaling each other and shouting back and forth.

forth.

One of the prettlest young ladies in Washington, whose crown of sunset hair has been her pride, went home crying the other afternoon, and declared she never, never would go on the street again till every idiot of a man was dead, who, just as soon as they saw her, began looking for a white horse.

A young department clerk met a red-haired lady clerk in the same division, and immediately ran to the window. "What are you looking for?" she asked.

asked.
"For a white horse," he replied.
"When I see a read-headed girl I always look for a white horse, and there

always look for a white horse, and there he is."

"Indeed!" said the young lady, sweetly. "And whenever I see a white horse I always look for a fool." Congressman Beriah Wilkins, of Ohio, got himself heavily "stuck" for 25-cent cigars on what he thought was going to be a smart trick. He wagered a box of "Perfectos" cigars with a gentlemen that he could take him on a street where he could see five redheaded girls, and there would not be twe white horses in sight. The bet was taken, and Beriah marched his friend in front of Madame Rochan's hair "ad." in the big window. Among the lay figures were five with red or bloade

What They Are Saying About Bob Lincoln.

The Toledo Blade (Rep.), which brought out the interview with exsecretary Lincoln respecting the Presidency, has the following expression as to his availability: "How is it regarding Lincoln? He believes in Civil
Service reform. He could raily the Service reform. He could raily the Mugwump strength in New York, and, in fact, all over the country. It may be interesting just here to relate a fact which has never before gotten into the newspapers. Roscoe Conklin was in Chicago several weeks ago, as counsel in the famous waxed paper-patent case. In conversation with a prominent Republican on political matters, he said, Why don't you Republicans in the West insist on nomina: Ing somehody who can win? You have here in Chicago a man who can sweep hew York to you have here in Chicago a man the New York to win. Who is he? Why, Bob Lincoln, it is course."—[Exchange.

STAUNTON & MATTHEWS, 3 NORTH MAIN STREET, LOS ANGELES. ble man, and he wears his hair a trifle long, particularly in front, so as to have a suggestion of a bang. But the hideous ear-pieces that were born in the Stock and Produce Exchange—tabs of hair combed in front of the ears, as Cruikshank used to picture them on the Artful Dodger—have wholly disap-reared.

White vests are worn, but are not exposed, as both the sack coats by day and the frock coats by night are buttoned all the way up and down. Canes are still clutched in the middle, as an Irishman on the stage always holds a stick he is going to fight with. But neither of these rules holds good with Mr. Wall. He is this morning arrayed in a pale drab suit checked with darkbrown stripes, a white straw hat with a blue band, white overgaiters on plain leather shoes, a high collar, and a light mauve scarf and small pin. But his coat is thrown open and discloses an ordinary white vest. As to his cane, whenever he is walking with a lady he holds it in both hands behind his back with the knob between his shoulder-blades and the ferrule below his coat. Does this strike the serious reader as a trifie? He is mistaken. This autumn on the avenue all young men of fashion will be seen carrying their canes in that way. This piece of news is to them the most important in today's Sun.

Apparently (and this is not a fashion note, but a philosophical reflection) a cast-iron expression of face is required in the perfect dude—a sort of inert, phlogmatic, heavy look, with just a tinge of sadness showing through it. To look exactly as a dude desires to look imagine yourself about to meet a friend who wants to borrow a hundred dollars, and who ought to have it from you, but is not going to get it.

These young tallors' models at Long Branch and in this place are a new development in American society. They are practically the only young men who stay at such places the whole season through. Other young men cannot afford it. They have to work, or at least desire to work and to wait until they have made their piles—somewhere beyond middle life—before they loaf away their summers. Until the dudes arrived there were no young men at such places except those who came for a week or two. The dudes appear to be young men who are either heirs in receipt of fortunes, large or small, or else pensioners of rich fathers. The college boy is not to be cl not he is devoid of taste. But another thing that is very apparent about dudes is that neither money nor taste, nor both combined, will serve to make a dude. There are half a dozen young men in Saratoga who copy Mr. Wall as closely as his own mirror, but they don't look right. One stoops, another is built like a brewer, and another is as awkward as a farm boy with a guitar. Dudes are like athletes and prize-fighters—in their prime when young—but 30 is a dude's best age while 24 is nearer the best age of an athlete.

In one of their relations to society

In one of their relations to society the dudes command respect. They are models of grace and gallantry when in the company of ladies. They never are covered when with ladies unless permission is accorded them to put on their hats, no matter where it may be. their hats, no matter where it may be. Their politeness, deferential expression of face and pose of body, and their ability to listen (perhaps because they cannot talk), are matters which, if they were copied by the rest of the sex, would make all men far more popular with the ladies. Even in bowing to a lady, the genuine dude manages to convey the impression to each female friend that she isspecially honored, and that she got hisbest bow—the kind he was saving for a Princess.

How the Administration Rebukes Its Friends.

[Exchange.]

The Administration has again rebuked those who wave the bloody-shirt by appointing an ex-officer of Ku-Klux from Arkansas. He received a prominent position in the Patent-Office. The rebuke is the more cutting and effective from the fact that the klan to which this man, Frolich by name, belonged committed many atrocious murders, and Frolich was the officer who made the detail for doing the work. The administration is very severe in its disapproval of bloody-shirt ideas.

cause soldiers reunions to be untimed in the future? It would sem so, and evidences both direct and ferential are not lacking. The accusation is made in Demoratic and Mugwump papers that the rand Army posts are Republican suppaign clubs, and the soldiers' renions are Republican mass meetings, ito which Democrats are inveigled or the purpose of influencing them gainst their party. The sole foundation for these unjust charges is this: Then the veterans meet at reunions are member not only their ormer comradeship in battle, and be incidents, hardships and pleasares of army life, but they remember also the sacred cause to which hey devoted the best years of their yees, and they will, and do, speak of hat cause in their conversation with ach other, and in public utterances, in esolutions, etc. Such conduct (say the Democratic and Mugwump papers) is sigbly reprehensible; it is waving the bloody shirt in the faces of the ex-Condecrates; it is disrespectful to the President of the United States and insulting to all Democratic soldiers present.

The determination of the Cleveland

ent.

The determination of the Cleveland administration, backed up by the solid South and the Mugwumps, is to place the Lost cause of the Confederates and the cause of the Union on an equal footing. The President's order respecting the return of the rebel flags furnishes positive evidence on that point when taken in connection with his explanation and the explanations of his friends.

The Union soldiers of the North have no emnity toward the Confederate soldiers, and have never expressed themselves as being filled with malice and hatred toward them, as charged by Copperhead and Mugwump newspapers. They recognize the fact that the war is over; they know that the Confederacy is dead, for they were in at the death; but they maintain, and will ever maintain, that the cause for which they fought still lives. Who demands that they shall be silent on that subject? Do the Confederate soldiers make any such demand? No. Grover Cleveland and his Cabinet and the Confederate "brigadiers," backed by the Copperheads and Mugwumps of the North, make that demand. If it be true that passionate utterances, or intemperate language, have escaped the lips of members of the Grand Army, who provoked such utterances, and the use of such language? Neither Gov. Foraker, nor Gen. Fairchild, nor Gen. Tuttle, nor any other member of the Grand Army has, at any time, uttered a word in disparagement of the Confederate soldiers. But when men like Grover Cleveland, William O. Endicott, George William Curtis and Windy Wilson make such demands in the name of the ex-Confederates what right have they to expect that no one will make a sharp reply?

It is assumed by the President a i his advisers and flatterers that the men who served in the Confederate army are exceedingly sensitive; that they are still sore over their defeat; that they are still sore over their defeat; that they are still dangerous; and that, therefore, if anything disrespectful be said of the man whom they placed in the Presidential chair, or of the brigadiers, or the Mugwumps, the southern beart will be fired and the ex-Confederates will renew the war. But as for the exsoldiers of the Union army, what have they to be sensitive about? They were victorious; they get pensions; they should, therefore, for the sake of peace, admit that there was little or nothing in the cause for which they fought, and that the Confederate cause was as meritorious as theirs. Aye, the

nncea-ing attacks upon Gen. Fairchild, Gen. Tuttle, Gov. Foraker and the Grand Army.

The Copperheads and Mugwumps may make themselves solid with the solid South by persisting in their attacks upon the Grand Army. They should take notice that to insult the Grand Army is to insult the 1,500,000 survivors of the Union army—to insult the sons and brothers of the 1,500,000 who are dead. These fellows forget that within a fraction of 3.000,000 men entered the Union army from first to last. The fathers, sons, brothers, nephews and cousins of these men, together with 1,500,000 survivors, will cast 4,000,000 of votes at the Presidential election in 1883; and if the Copperheads and Mugwumps continue their taunts and insults—continue to belittle the Union cause—Grover Cleveland will not receive 200,000 of those votes.

Who is stirring up strife? Who except the men who insist that treason is a virtue; that an attempt to destroy the Union are no more entitled to public gratitude than are those who fought to destroy it? When the President of the Union are no more entitled to public gratitude than are those who fought to destroy it? When the President of the Union are no more attempt to force such odious propositions down the throats of the American people, has not the time arrived for a revival of the patriotic spirit of 1861-'65'

Portugese mail just arrived from the West Coast has, as I anticipated, brought news from Mr. Stanley, dated Aruwimi, June 19, 1887.

STANLEY'S LETTERS.

Ward and Bonny, with a detachment of 125 men. We have now 640 men, 500 loads of goods, riding animals and the live stock of the expedition on board the flottills, and since leaving Bolobo we have had no accident or incident worth mentioning, no losses in men or goods, no famine, no inconvenience, no accidence of the flottills, and since leaving Bolobo we have had no accident or incident worth mentioning, no losses in men or goods, no famine, no inconvenience, no accidence of the flottills, and since leaving Bolobo we have had no accident or incident worth mentioning, no losses in men or goods, no famine, no inconvenience, no accidence of flottills, and since leaving Bolobo we have had no accident or incident worth mentioning, no losses in men or goods, no famine, no inconvenience, no accidence of flottills, and since leaving Bolobo we have had no accident or incident worth mentioning, no losses in men or goods, no famine, no inconvenience, no accidence of flottills, and since leaving Bolobo we have had no accident or incident worth mentioning, no losses in men or goods, no famine, no inconvenience, no accident or incident worth mentioning, no losses in men or goods, no famine, no inconvenience, no accident or incident worth mentioning, no losses in men or goods, no famine, no inconvenience, no accident or incident worth mentioning, no losses in men or goods, no famine, no inconvenience, no accident or incident worth mentioning, no losses in men or goods, no famine, no inconvenience, no accident or incident worth mentioning, no losses in men or goods, no famine, no inconvenience, no accident or incident worth mentioning, no losses in men or goods, no famine, no inconvenience, no accident or incident worth mentioning, no losses in men or goods, no famine, no inconvenience, no accident or incident worth mentioning, no losses in men or goods, no famine, no inconvenience, no accident or incident worth mentioning, no losses in men or goods, no famine, no inconvenience, no accident or incident wort via the Congo that could by any possibility reach Europe, and that it is an impossibility for any news to come from the Aruwimi across Africa to Zanzibar within the time specified. It is more than probable this latest telegraph is the same message sent via San Thome on the 20th of last month, and, having found its way to Zanzibar, was adopted by the French Consul at that place and telegraphed to his Government as a piece of news.

Mr. Stanley's letters, therefore, not only serve to dispel the painful impression these mischievous and deceitful rumors have created, but they convey the satisfactory intelligence that he has safely reached his farthest point on the Congo; that everything is going well with the expedition, and that the health of himself and his white comrades is all we could wish or hope for.

There now remains about 400 miles between Emin Pacha and the expedition. During-part of this journey the natives may show some hostility; but as welearn from Mr. Stanley's letters, they appear to be the broken remnants of many tribes, and their opposition, being that of small communities, without any unity of action, will be very trivial. Then, also, the couriers sent from the eastern coast last March will have brought to Emin the news of the dispatch of the expedition and its probable route, and he doubtless will detach a force to open up communication in the direction of the coming supplies. Let us suppose that Mr. Stanley left his camp at Yambuya about the 23d of June, he would, with a selected caravan, his men well rested, well fed and strong, reach Albert Nyanza in thirty days, and at this moment he and Emin are at Wadelai arranging future plans, daving dispatched a caravan to Aruwini to bring up the remainder of the supplies.

daving dispatched a caravan to Aru-wimi to bring up the remainder of the A courier sent from Wadelai the end of July would reach the coast the beginning or middle of October. About that date we expect more news of the expedition. Faithfully yours,

F. DE WINTON.

Stapleton Towers, Annan, N. B.,

prevent the Zanzibaris being fempted to desert us by the Zanzibaris at the falls.

In my letter from Cairo I estimated that the journey to Wadelai could be performed via the Congo in 157 days from Zanzibar. One hundred days have already passed. If we meet with no accident we may safely reach the rapids sixteen days hence. We shall be then about 360 geographical miles from the the Albert. We may be detained a few days to wait for Maj. Barttelot from the falls. Say that we have but thirty days left of the estimated time when we attempt the first march, we shall have a task of twelve geographical miles to make each day. I said in my speech at the Burlington Hotel: "Until I am landed at the point of disembarkment, I am in the hands of the engineers and captains of the various steamers that are to convey the expedition." This letter will inform you of some of the delays to which I have been subjected. But breaking of rudders and the crumpling up of thin steel hulls and leaky steam boilers have not been all. We had to finish the construction of a new steel steamer; we had te launch her. The Peace alone detained us six days at Leopoldville before starting. Nevertheless, though it is scarcely possible to march twelve geographical miles per day steadily for thirty days, through an utterly unknown country, without guides or interpreters, we shall do our best and maintain a cheerful hope that, as our best energies are devoted to the work, we shall be rewarded with a view of the man we seek to relieve.

CAMP AT YAMBUYA RAPIDS, Aug. 18.
Bertish Baptist Steamer Peace,
May 31, 1887.—We are now 188 hours'
steaming above Kinshassa (Stanley
Pool), which was our point of departure
for the Upper Cengo. We started May
1st with 612 men, besides several riding
animals, the Henry Reed, of the Livingstone Inland Mission, leading the
way with 131 men. The second was
the Stanley, towing the hull of the
steamer Florida (which we had
launched only the day before), carrying 364 men, 500 loads of baggage and
goods, nine riding asses and a flock of
goats. The last was the steamer Peace,
towing two boats, with 117 people on
board.

Doard.

The first two steamed straight on and duly finished the first day's journey; but the Peace met with an accident about two miles above the landing place of Kinshassa, the head of the rudder snapping clean off and the boat became unmanageable.

rudder snapping clean off and the boat became unmanageable.

Her captain threw two anchors overboard and drew us up with a severe jerk in the midst of a violent current. We then had to cut the chains to extricate ourselves from a dangerous position, and returned to the beach at Kinshassa. The captain and engineer of the Peace were compelled to return to Leopoldville, six miles below, to repair the rudder at the workshops of the State. One complete day was thus lost. Then for three or four days we traveled with tolerable steadiness, the Stanley and the Reed making excellent time, but the Peace was slow. Between Kinshassa and Mswata (eighty-eight miles) we were two days behind the usual running time of steamers. Beyond Mswata, however, the Peace showed daily more signs of collapse, until a few hours below Bolobo she Beyond Mswata, however, the Peace showed daily more signs of collapse, and the standard properties of the same of a naruntil a few hours below Bolobo she began to descend with the current; we therefore anchored. We sent our people ashore and a boat to Bolobo, with a note to dispatch the Reed to our assistance. The next day, in tow of the Henry Reed, the wretched steamer made her ignominious appearance at Bolobo. It was bad enough to be daily detained by the Peace, but you may imagine my consternation when half way to Bolobo we found the Stanley and Henry Reed lying at a landing place without steam in midday. The cause we found to be that the Stanley had been exploring some ragged reefs

and Henry Reed lying at a landing place without steam in midday. The cause we found to be that the Stanley had been exploring some ragged reets on an independent course, and had rashly attempted to plow them up, in which mad attempt the great steamer had had her second forward section completely wrecked. Examination by three engineers proved, however, that it could be restored to use by patching plates underneath. Two days were consumed in this delicate job. All hands worked devotedly.

Arriving at the Bolobo, we were compelled to dispatch the Stanley, with a strong injunction to leave exploration alone for the time being, especially of rocky reef, to Kawmouth, to bring up Maj, Barttelot and his detachment of 153. For, in order to economize time, the gallent Major had to march overland from the Wamboko River to Kawmouth, a distance of about fifty miles, to make amends for the delay the Stanley had occasioned us. On this trip the Captain really distinguished himself, and was back at Bolobo on the third day.

Meanwhile the engineer of the Peace, smarting under the unspoken imputation that his steamer was no better than a mud scow, had consulted with a canny Scotch colleague who drove the Henry Reed, as to the ways and means of improving on the famous Thorny-croft of London, who was responsible for her creation, and the two agreed to screw the upper safety valve to retain the constantly escaping steam. It was not the order to t

\$40—Meadow Park Lota—\$40.

Owing to the rapid advance of real estate in this locality, and the demand for property near the ocean, I have made another subdivision in this tract, and now offer for a few days choice lots at \$40; \$10 down, \$5 per month, without interest. Buy of the original owner, A. R. Walters, Wilmington, or A. C. It was not the only one fixed, but it had hitherto been deemed absolutely essential that she should have two safety valves. Accordingly, after boring through the boiler, the cap of the valve was made a rigid fixture.

During the fifteen days that have alone passed, we have discovered that it has been a very wise arrangement, for the Peace is in the advance, as the flagship of the dotilla ought to be, and I should recommend the builder of the Peace to have the invention patented "Sunset."
